termined to found in the college a professorship of law in furtherance of his views and in his memory. The invested gift of the honored family is \$17,500, and upon this the present flourishing school rests. Roger Gregory, Li. D., greatly trusted and honored in Virginia, is at the head of the school, and is giving it reputation for great vigor and thoroughness. The school has a fine pairottage and is rapidly growing in numbers and prestige. Richmond is undoubtilly the best tags. Richmond is undoubtilly the best tags. Richmond is undoubtilly the best tags. With great court anythmosphale pursuing their and influence, elergymen of wide reputations, judges and able lawyers, professors, physicians, and a long list of well-known husiness men.

In addition to the corps of teachers at announced, Pref. Edmund Harrise announced ann RICHMOND COLLEGE, BROAD AND Its Location Cannot Re Surpassed, and No. ness. The school has a fine patrotage and is rapidly growing in numbers and prestige. Richmond is undoubtedly the best place in Virginia for a law school. Contral, historic, with great court advantages, and many opportunities for students to obtain work while pursuing their studies, it is destined to be more and more a gathering place for young men who seek the profession of law. It is found that many business men of the city are availing themselves of the opportunity to acquire a practical knowledge of law while pursuing their various callings.

inson, Dr. H. H. Harris, Superimentical; W. F. Fox, and Dr. W. E. Haither, of Richmend; Dr. P. S. Henson, of Chicago; M. B. Howell, Esq., of Nashville; Dr. Geo. B. Taylor, of Rome, Italy; Prof. W. G. Woodfin, of the University of Georgia; Prof. Thos. Hume, of the University of North Carolina; Dr. W. S. Ryland, President of Bethel College, Ky., Gen. W. S. Penick, of Louisiana; Prof. J. J. Harvey, of the University of West Virginia; Dr. J. M. Pilcher, of Petersburg, and others, good men and true, every one Illivey, of the University of West Virginia.;
Dr. J. M. Pilcher, of Petersburg, and others, good men and true, every one filing some important position with credit to himself and honor to his Alma Mater. The plan of the college in allowing selection of studies with reference to the student's reeds and in requiring high standards in every department limits his diplomas to comparatively few persons. Among the several thousand students who never obtained a diploma of any kind are found nine college presidents and professors, as many judges, and scores of editors, hawyers, doctors, teachers, preachers, and other influential men. Richmond has long feit the need of a good law school, not only for the convenience of its own sons, but for the benefit of a lare number of young men who prefer to come to the capital of the State for study, acquaintance, and the advantage of the splendid group of city, State, and United States courts, to be found here.

It is an especial object of the management to see that healthy and proper food is provided for its pepils and it is furnished in abundance, and nearly prepared.

The Fishburne Military School has hundreds of testimonials from prominent educators all over the country.

The system of discipline adopted at this school is designed to enable young men to prosecute their studies under influences adapted to develop a true manhood. It is aimed to imbus them with high and noble sentiments—truthfulness, honor, and candor.

That such efforts have not been in vain, but on the contrary, that they have brought good results, is shown by the stand taken by former pupils in almost every department of business, and by their own testimony to the value or the training gotten at the "Fishburne Military School."

The Fishburne Military School has built for the country.

The system of discipline adopted at this school is designed to enable young men to prosecute their studies under the flexible of the memory of scientific and literary works, estimated at \$6.00 to \$0.00; Pr. Thomas J. Moore, M. D., Professor of

Clinical Medicine,
Joseph A. White, A. M., M. D., Professor of Diseases of the Eve, and Associate
Professor of Diseases of Ear, Throat, and Clinical Medicine.

UNIVERSITY COLLEGE OF MEDICINE.

The course of instruction during the first two years is diffactle lectures, void-fashioned red-tations and practical work in the several laboratories. This course is very thorough in the fundamental branches. In the third and graduating year, the system of instruction is more extended, led-side instruction in medicine, gynecology, surgery, and obstetrics being personally taught each student, and to astatis this end, practical work in small clinical classes is as fully developed as possible.

NOLLEY'S SCHOOL. Located in Residential Richmond, it Has

Many Advantages.
The Ecation of Nolley's S mool on
me street, between Grace and Franki, is of great avantage to patron, teach, and pupil, in that it is in the midst

The course in surgery is divided into five departments, and that of the practice of medicine into three, while all the specialties are fully and practically taught by recognized specialists. Nolley, who has made a special study of how to equip a school so as not only to meet the demands of the teacher, but also to be adapted to the comfort and health of the pupil. The rooms are well heated, lighted, and ventilated, and are furnished with Andrew's patent desks, cement blackboards, latest charts, and other school apparatus. The principal for ten years was connected with that prince of educators, Mr. Thos. Norwood, Mr. Nolley first opened a school on Franklin street, meeting with great success from the start. This gentleman enjoys the regulation of managing boys Hospital, the Richmond Programs of the University College Dispensary, as evidenced by the fact that during last year more than 3,00 patients were freated at these different institutions. The State and municipal colleges of the continuous of the continuous continuo 5,50 patients were frested at these shiferent institutions. The State and municipal public charities, such as the City Almshouse Hospital, etc., which are located in this city, also furnish varied and interesting clinical material.

These institutions farnished, besides numerous minor cases, sixty major operations for the surgery clinic duroperations for the same of the past session.

The graduating class also attended thirty obstetrical cases under the supervision of the demonstrator of clinical obstet-

under the exclusive control of the facul-ty, and three gold medals and ten prizes are offered annually to the most deserv-ing students in the Departments of Med-icine, Dentistry, and Pharmacy.

nials.
In this school, especial attention is paid to English. "Tarbell's Lessons" is used in the junior classes.
Frequent reviews, especially in mathematics, are held to test the progress of the class.

THE DENTAL DEPARTMENT.

The Department of Dentistry refers with pardonable pride to the special thoroughness of its didactic and practical instruction. It is confidently believed that the dental sudents in the University College of Medicine have some special divantages that are unsurpassed by any dental college in this country, for they are not only required to study all the branches in their special profession, but are required to thoroughly master the whole medical curriculum, for the first two years, at the same time. Hence, in addition to the facilities offered in the Dental Department, students in dentistry in this college will have, without extra charge, the privilege of attending the full course of medical

cr, who is well known as an athlete.
Afr. Nolley spends his vacation in Ashland, but pays regular visits to town to
see any desiring to talk about entering PHARMACY.

The Department of Pharmacy has spared neither pains nor expense to make this fully equal to any college of pharmacy in this country, and in addition to the regularly prescribed course in pharmacy, the students are allowed to attend some of the collateral branches in the Medical Department without extra charge. This department without extra charge. This department is under the direction of able and skilled instructors. The lectures are thoroughly illustrated by experiments, as well as by specimen plates and diagrams.

The course embraces two years, and candidates for the degree of graduate in pharmacy (Ph. G.), must pass satisfactopupils.

cess from the start. This gentleman enjoys the repaintion of managing boys with ease. His discipline is strict, but never harsh. The boys over without being made to feel that they are obliged to, which is the acme of the teacher's art. Probably one reason for this is that in this school each boy is put on his bonor, and is not made to feel that he is being watched.

Mr. D. H. Fucker, associate principal, also taught with Mr. Norwood, and afterwards was connected with Staunton Military Academy, leaving these to accept his present position, From these educators and others he bears high testimonials.

Certificates of distinction are awarded to those papils who have passed satisfactorily the semi-annual examinations.

To promote and reward officence still further, nine prizes, consisting of handsome gold medals, are offered in the various academic classes, penmansup, and declamation.

A scholarship, which entitles the winner to free tuition in this school, is awarded to the pupil who makes the highest average in all his studies.

One of the features of this school is a large gymnasium, fitted up with improved apparatus for the exclusive use of the pupils of this school.

Classes in physical culture meet daily under the instruction of Mr. D. H. Rucker, who is well known as an athlete.

Personally Conducted Tours to Watkins and Niagara Falls via Pennsylvania Railroad.

Hallroad.

Taylor, Traffic Manager, R., F. and P. R. R., Richmond, or address Colin Studias, Pass. Agent, P. R. R., Washington, D. C. Niagara Falls Tours via R., F. and P. R. R.

ned by obelience to the two maxima of the institution:

"Re earnest, work hard, and speak the trath," and perseverianta vincit omnia."

"fides infacta."

The purpose of the principal and his assistants is always absolute inoroughness, clear-headed knowledge of the connection between process and principal. Sohn P. McChire, the principal, is too well known as disciplinarian and teacher for extended comment here. He left the University of Virginia in 1856, taught mathematics and arcient languages for nearly five years under the rectorship of the Rev. John P. McGuire, at the Episcopal High School, taught mathematics in the Confederate States naval school for a portion of the war period, and has now spent thirty years as principal of his own school in this city. In addition to the organization, discipline, and general supervision of the school, he will teach mathematics and lower classes in other studies, holding occasional recitations throughout the school, and giving special assistance, so far as is possible to hove who for lack of Richmond College, responding to this demand, established a school as early as 1870. The learned and able J. D. Haly-burton and Wm. Greene were the first professors. They were followed by the no less brilliant Wm. A. Maury and James Nellson, and later by Samuel D. Davies.

Experience proved that the school could first be well-sustained without endowment, and the idea took hold of the judicious, practical mind of the late eminent tobacconist, Thos. C. Williams, of this city, and it was known that he cherished the desire to see a law school established upon a firm footing. After his decease, his widow and children de-limitation, and general supervision of the school, and giving special assistance, so far his decease, his widow and children de-limitation.
